

Report Panpyc Timed SUURSAARI 07 2025

CLUBSWAN 50

At the helm of a Swan50 club, we'll sail the Gulf of Finland, the eastern arm of the Baltic Sea, around Helsinki, the capital of Finland.

We'll have 10 buoys or lighthouses to pass on the port or starboard side, but in reality, four are the same ones we'll pass on the way back

Haukilahti Harbour

The Helsinki Lighthouse (Finnish: Helsingin majakka; also known as Helsingin kasuuni^[2] — Swedish: Helsingfors fyra; Helsingfors kassun) is a caisson-type lighthouse located in the Gulf of Finland, 22 kilometres (12 nautical miles) south of Helsinki's western harbour.

Kalbådgrund Lighthouse is a lighthouse located on a dangerous shoal near the center line of the Gulf of Finland about 12 km (7.5 mi) from the shore and about 25 km (15 mi) south of Porvoo and was the first caisson lighthouse in Finland.

Port of Hamina-Kotka

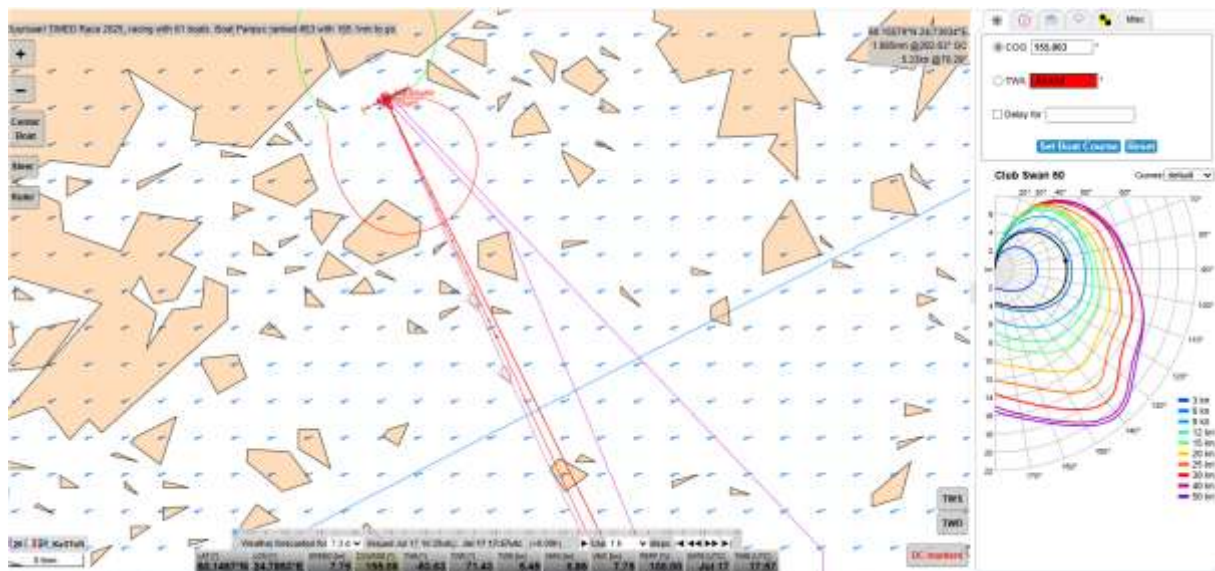

Hogland (Russian: Гóгланд; Finnish: **Suursaari**)

The goal of this race is to achieve the best time between 12:00 UTC on July 13th and the race closes on Saturday, July 26th at 11:00 PM.

Observing the weather, we can estimate departures around the 14th, 16th, or 18th.

Finally, I decide to leave on July 17th at 5:52 PM UTC, and surprise, I'm behind Kastor and Rafa.

But in the same time frame, we also have **Adlaem, Forban du Collet44, and CriticalHippo.**

For this first attempt, **Kastor is in the lead with 21 :33 :49 . .**

That's good for us because the weather doesn't offer any interesting windows.

Mistake: several competitors left after us, including Brellis, who took the victory with 20:15 :08

Arriving at 4:11 a.m. on the 21st, we should have left the same day around 6:00 p.m.....

But that's the game because finding the right time slot, plotting the fastest route possible, being present when the buoys pass (if possible) and following the coast as best as possible without a BBQ is no small feat !

Well done, Brellis! and congratulations **to all the SOLers** who fought well
