

## **Captain Gosnold TIMED Memorial Race 2025 - Race Report by KaSToR**

While on holiday, I had time to find the right steed to try to cover the 140 nm as quickly as possible.

Unfortunately, I must not have had the right instructions, as I was beaten three times.

Kipper was faster than me on my first attempt, Bonknhoot on my second, and finally, Kipper and Vida on my last.

During the last attempt, I think Kipper left at the best moment since he was well ahead, but unfortunately he narrowly missed the line.

I left shortly afterwards. I should have taken advantage of the situation, but a small mistake when entering DC and Vida's perfect navigation allowed him to get ahead of me.

A big congratulations to vida ! Great victory because I think he left when the window closed !

Congratulations to Kipper and bonknhoot, who gave me a hard time and forced me to dive back into my polars to study.

Have a great end to your holidays, those of you who are on holiday =)
