

SSANZ Triple Series 2025 - Race 2

KaSToR

As you can see from the photo, KaSToR is very busy during his days, enjoying his summer holidays.

But since the race started at 9:15 p.m., he was able to participate.

For the report, I invite you to read Mirek's, as he was ahead of me the entire race. There was no way to catch up with him! It's not for lack of trying, though. Congratulations to Mirek, congratulations to CriticalHippo, and congratulations to everyone.

For your information, KaSToR will be back at work in September and should be able to improve his race reports a little more ;)
