

THE CHINOOK SALMON – 2026

I started a few hours late as I was thinking I would not have a chance in the initial blue goo!

Then when I opened the race on SOL I realized that many were in a bad place. Honestly, when I saw that SMO started, I figured why not see what I can do.

I am only in a position to update my routing twice a day, so I did not have high expectations.

I honestly think that not being able to update my route as often as I would have wished was a benefit.

I believe there was a lot of luck as well!

Funny how things work out!
